

We at **Graco** invite real families to help test every product. So, when it's time to start your family you can be sure that parents like you have pushed, swung, rocked, clipped, folded, stored, carried and wiped them all.

Their experiences help us get it just right for you.

Graco cover star winner 2014. Faye Gunn, 22 months. Proud mum Claire said

“I took the photo on my bed, just after she had woken up from an afternoon nap. She is always so instantly full of life and smiley. I wish I was like that when I woke up :)”

CAR SEATS

We know that the safety of your little one when out and about in the car is your most important priority, and is ours.

We are passionate about Child Safety, designing and developing car seats that give your child the best in safety, security and comfort.

Baby | Toddler | Child

PASSIONATE ABOUT SAFETY

Children grow quickly and our range provides safe and practical car seat solutions for all stages of your baby's development from birth to 12 years old.

Here are some important points you need to know before choosing any car seat helping you make the right choice.

Choosing a car seat is a big decision and can't be left to chance. The safety of your child largely depends on the car seat being installed correctly and also that they are chosen based on the **correct weight and height of your child**. In most countries, the law states that you must use a car seat from birth until your child reaches 135cm in height or 12 years – whichever is reached first.

Our range of car seats have been designed and developed with parents and are lightweight and extremely easy to install.

The comfort, safety and well-being of your little one is paramount to us – and

our car seats have been designed to ensure just this. Our 'Safety Surround™' technology provides additional side impact and head protection. ISOFIX provides ease of installation and reassurance. Finally we use memory foam and breathable fabrics to provide additional comfort for your child as they develop and grow.

Graco's Safety Surround™ technology provides additional side impact security and protection for your child's head in the event of a side collision. Our Safety Surround™ products go above and beyond EU standards for car seat safety, giving you peace of mind that your child will be protected and as safe as possible when travelling in the car.

GRACO® JUNIOR MAXI PLUS GROUP 2/3

The highback booster.
From 4 to approx. 12 years (15-36 kg)

Junior Maxi Plus
Rigorously crash tested to meet EU safety standards. Height-adjustable head support. Height-adjustable armrests. Open loop belt guides to help ensure proper seat belt positioning. 2 retractable cupholders. Machine washable covers. Universal car compatibility approved.

GRACO® BOOSTER GROUP 3

The comfort booster.
From 4 to approx. 12 years (15-36 kg)

Booster
Helps safely transport your child from approx. 4-12 years (15-36kgs). Height-adjustable armrests and hide-away cup holders keep children smiling. Intuitive vehicle belt routing indicators. Washable machine covers.

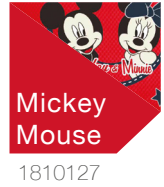

GRACO® TEA TIME

The simple and compact folding high chair.
For use from approx. 6 months

Tea Time
Ultra lightweight. Large feeding and playtray. 5 point safety harness. Footrest. Quick and easy fold. Freestanding when folded. Wipe clean seat.
